Inferences from statistics to date

• 2/3 of our users are female
  • Does this fit with other statistics?

• Largest age group is between 23-44
  • Is the younger generation doing the searching for the older generation?

• 77% of users access the website using a desktop
  • This is surprising given the active age group

• “Basics of Medicines Development” is the most popular category
  • Does this infer a requirement for basic content?

• Factsheets and Presentations are not being used enough.
  • Discover, Adapt and Share pages
Downloading the EUPATI Expert Course

• The course download package has been downloaded ~180 times to date
  • [https://www.eupati.eu/download](https://www.eupati.eu/download)

• The format of the download is a Moodle archive file.

• You must have an live installation of Moodle to view the files.
What is Moodle?

• Moodle is a Learning Platform or course management system (CMS) - a free Open Source software package designed to provide educators, administrators and learners with a single robust, secure and integrated system to create personalised and effective online courses.

• The Moodle archive file contains XML files that store semantic information regarding the instructional sequence and system settings for the online course including:
  • Lesson titles and description
  • Lesson paths
  • Lessons quizzes and quiz settings
  • Forum set up and questions
Downloading the EUPATI Expert Course

• This download file is intended for organisations or education institutions who already have Moodle installed on their web server or who have the IT resource to install and run it.

• It is not intended for individuals with no experience of Moodle.

• Individuals who would like to access the course content can do so from the toolbox.
